EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: this application is in condition for allowance except for the presence of claims to an invention non-elected without traverse. Accordingly, the claims have been cancelled.

- Claims 5-8 are cancelled.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: prior art of record does not describe or suggest applicants' invention set forth in claims 1-4, a method for forming a scribed groove at the surface of a wafer using a cutting part having a cutting edge wherein the method comprises the step of moving the cutting part such that the cutting edge forms a path having the shape of an inverted trapezoid.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Cited Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Tohyama et al. (US Patent No. 6,515,309) teaches dicing along a groove of an inverted trapezoid (see figure 1E) but does not teach or suggest a scribed groove or using a cutting part but rather teaches etching (see figure 1C).
